OFFICERS COMMUNICATIONS.

The following opinion was presented received, and on motion of Alderman Shawda ordered to be entered in the minutes.

To the Board of Aldermen of Jersey City:

GENTLEMEN—I am in receipt of your resolution inquiring first, "whether a resident of Jersey City is required to be licensed to peddle goods manufactured in this State," and second, "whether a peddler's license is required to deliver goods in Jersey City that are previously ordered or ordered at the time of delivery."

The statute of 1846 relating to pedlars, enacts "that no person shall follow or use or exercise the business of a peddler * * * carrying, selling or exposing either at public or private sale, any goods, wares or merchandise not the growth, product or manufacture of this State, until such person shall first have obtained a license for that purpose."

Under this statute, of which I find no repeal, your first inquiry must be answered negatively.

The answer to your second inquiry depends upon whether the person who delivers the goods is simply a workman or driver having no interest in the goods or proceeds thereof, and whether the goods are of such a character that they cannot be sold without license.

If the person delivering the goods has no interest in the goods or the sale thereof, he cannot be required to take out a license. If the goods cannot legally be sold without license or for the sale of which a license fee may be

charged, then the owner of the goods or business should procure a license which the person delivering said goods should have in his possession.

Very respectfully,
JOHN A. BLAIR,
Corporation Counsel.

Whereas, By an Act of the Legislature, approved March 25, 1852, the Mayor and Common Council, of Jersey City, was authorized to take and convey unto and through Jersey City, such portion of the water of the Passaic river, flowing between the villages of Acquackanonk and Bellville as may be required to furnish the inhabitants of Jersey City with a sufficient quantity of pure and wholesome water for domestic and other uses, under which law land was bought on the banks of the Passaic river by Jersey City, and for a period of thirty years the water supply of this city has been obtained from that source, and

Whereas, By the present charter in which the management of the water supply was put in the hands of the Board of Works, the grant of said water was re-affirmed, and

Whereas by grant of the State the water in the Passaic River where navigable and within the rise and fall of the tide and by its constant use for thirty years, Jersey City has acquired the right to have the water of the Passaic River undiminished by the removal of any portion of said water naturally flowing into it and uncontaminated by anything that might render it unwholesome or effected by diminution of the current; and

Whereas the city of Newark without notice to Jersey City and without its consent, proposes to enter into a contract for the removal of fifty million gallons of water per day from the upper tributaries of the Passaic River in violation of and detrimental to the people of Jersey City; be it

Resolved, That a formal notice be prepared setting out the rights of the people of Jersey City in and to the waters of the Passaic River, and a protest against the proposed contract be forwarded to the proper authorities of the city of Newark and that a committee of five be appointed to carry out these resolutions.
